# Emmanuel Ramírez Obando

**UX/UI designer - Developer**

## EXPERIENCE

**Kuactech**   UX/UI designer   Feb 2024 - Currently

As a UX/UI designer lead, I spearhead the development of web and mobile applications, covering a diverse array of projects from data management tools to corporate solutions and social media platforms. I collaborate closely with the programming department, not only designing and creating assets but also guiding and assisting in the coding process to ensure that the final product aligns perfectly with the envisioned design. Our team follows the Scrum methodology, ensuring an agile and efficient development process, with a strong focus on user experience and interface excellence.

**Freelancer**   Mar 2022 - Currently

As a freelancer, I have worked on various projects involving web design and development, brand design, advertising, logo creation, graphic design, and consulting in graphic and experience design.

**Walmart**   UX/UI designer intern   Aug 2023 - Dec 2023

As an intern in the transformation office we designed and tested a self-service data tool for corporate use.  By using user testing instead of trial and error, we cut the project development time by 85%. Through extensive research with users and stakeholders, we understood their needs, developed team capabilities, and addressed technological limitations. We also coordinated and led validation sessions for the proposed design, gathering feedback and adjusting it based on new insights.

**UnfortuneTeller**   Co-founder and Director   Dec 2022 - Dec 2023

I founded and led my own video game development company, where I was responsible for programming, designing and managing the overall direction of the organization. I led a multidisciplinary team of seven members. I successfully developed multiple projects simultaneously.

## EDUCATION

**Bachelor's Degree in Industrial Design Ing.**   Feb 2017 - Mar 2024
Instituto Tecnológico de Costa Rica (TEC)

**M.Sc. Computing and Informatics**   Currently
Universidad de Costa Rica (UCR)

**Bachelor's Degree in Software Engineering**   Apr 2019 - Pending
Universidad de Costa Rica (UCR)

**ONE-Oracle Next Education Certificate**   Sep 2022 - Feb 2023
Alura Latam & Oracle
